

## CLAIMS

1. A dispensing system for dispensing material onto a substrate, the dispensing  
5 system comprising:  
a frame;  
a support, coupled to the frame, that supports the substrate at a dispensing position in  
the dispensing system; and  
a dispensing head, coupled to the frame, that dispenses the material onto the  
10 substrate, the dispensing head including:  
a motor unit having a first motor coupled to an output drive mechanism; and  
a dispensing unit, removably coupled to the motor unit, having a material  
outlet from which the dispensing material is dispensed, the dispensing unit having a  
dispensing mechanism coupled to the material outlet and coupled to the output drive  
15 mechanism of the motor unit such that operation of the first motor causes the  
dispensing mechanism to dispense material through the outlet.
